

CompNar Unlimited, Inc. is designed to provide services that will lift men and women, to a higher level of life by building their self-esteem through the following three vehicles:

1. The Complete Woman/Man Seminars, a consulting service to improve the spiritual, psychosocial, and physical quality of a person's life. It is designed to give educational instruction through group seminars on subjects that promote a spiritual posture, confident imagery, and high-level performance. Seminars are tailored to address the needs of individuals needing to find a better way of life. Our messages are conveyed among social support groups; in educational institutions; churches; conferences; retreats; and in the work force.

Seminar consultants are Christian men and women willing to dedicate their time, talents, education, and life experiences to the ministry.

2. Fragrance of God's Love Media Broadcast with content designed to show how God's love reaches out to men and women in contemporary living as it did to those in Bible times. The programs help individuals to understand that they have a special place in the providence of God.

3. Publications, audio, and video recordings focus on specific day-to-day issues giving suggested solutions to specific problems based on the Word of God.

We believe that if men and women are empowered to be all that they can be through enlightenment, then manhood as well as womanhood will be lifted to higher levels of completeness. Thereby, improving the quality of family life in each individual family unit. We also believe that if both men and women are made aware of God's plan for their lives, as outlined in His Word, there will be happier spouses, less dysfunctional families, and more confident singles.
